# HULL

## Praise for *Beyond the Lightless Sky*

“One of the year’s most impressively conceptualized and executed ass-kickings.”

- *Spin Magazine*

“No doubt strengthened by time and touring non-stop, *Hull* has reached past the hype and staked their own ground as an affluent metal act.”

- *Metal Underground*

“[...]Hull join a rare but growing class of bands resurfacing doom with new influences and expectations.”

- *Pitchfork*

“**H**ULL materializes as a massive entity storming stages and immersing their audiences in a blanket of grandiose down-tuned compositions. A shifting fault line of decibel heavy harmony, this collective force converges in a collision of thrash, doom, classic rock, and formal orchestral works. HULL commands their listeners through each riff with incredible precision, as a seafarer guides vessels through ominous waters. Submerged in cosmic soundscapes, HULL challenges the mind with flowing, off-time fugues and powerful, dynamic movements. Brace yourself for an onslaught of eruptive force as a new world of music is formed in the deafening clap of thunder that is HULL.”
